

## 2. Pawn vs Knight

Usually a knight is much more powerful than a pawn, but a pawn has the potential to promote. Typically, you can think of a knight as being worth 3 pawns.

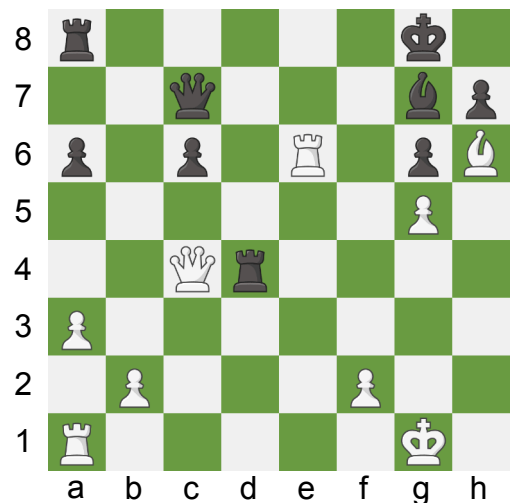

- Try to keep your pawns connected so they can protect each other. Don't advance your pawns forward unless you have a plan because they can't be moved backwards.
- Knights are good for blockading pawns to stop their progress. They are also good for jumping into spaces other pieces can't reach.

### Challenge Puzzles

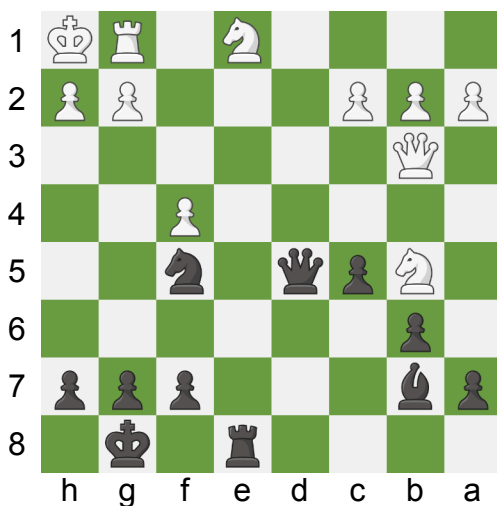

① White to play - mate in 1.

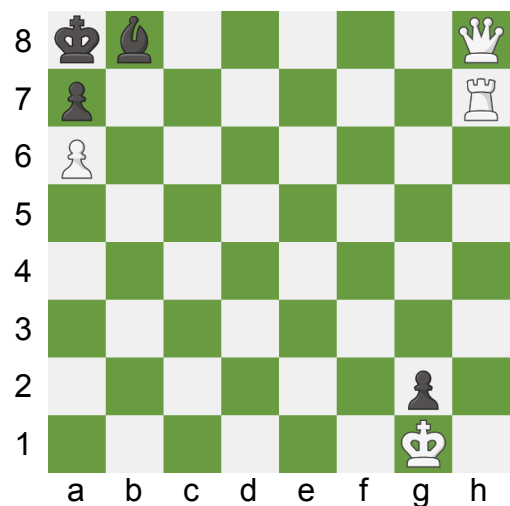

② White to play - mate in 1.

③ Black to play- mate in 2.

④ White to play- mate in 2.
